PROFILE

Front-End Developer and pragmatic thinker creating elegant and meaningful UI/UX. Continuously learning to enhance my skill set and provide value to my team/organization.

PROJECTS

Kylo's Pet Express — [View Project](#) [View Code](#)

- An online pet store theme highlighting products and services for both dogs and cats. A mobile first approach, including a custom mobile hamburger feature.

Tools: Html5, CSS3, JavaScript, and SCSS

Eddy's Kitchen — [View Project](#) [View Code](#)

- A vegan restaurant website built with a mobile first approach. It highlights a menu that changes weekly, a reservation form for users to reserve their spot, and lastly a contact page for the business.

Tools: Html5, CSS3, and JavaScript

Gamer's Lodge — [View Project](#) [View Code](#)

- Gamer's Lodge is a theme for a video game website and a hub for all types of gamers to learn, explore and shop. It focuses on providing users the latest industry news, game guides, reviews, and a store filled with gaming equipment.

Tools: Html5, CSS3, JavaScript, and Bootstrap4

Pocket Alexandria — [View Project](#) [View Code](#)

- An app that uses Google Books Api to allow the user to search through their large database of books.

Tools: Html5, CSS3, JavaScript, and Bootstrap4
